How to Combine PDF Files

1. **How to Consolidate PDF's** is to attach the PDF of supporting documentation to the PDF that summarizes this information in the excel tab of each cost component. If you are easily able to combine/merge these PDF files please do so. If you are unable to combine/merge these multiple files we can assist you with this. If you would like to attempt to do this yourself, visit this website, <https://acrobat.adobe.com/us/en/acrobat/how-to/merge-combine-pdf-files-online.html> where you will be able to download a free trial of Adobe Acrobat DC™ along with instructions on how to do so.
